Pembayaran : 100% saat barang siap dikirim ke alamat pembeli.

Sifat : Penawaran ini tidak bersifat mengikat.

Demikianlah penawaran kami, atas perhatiannya kami ucapkan terimakasih.

Hormat kami,

Yohanes Paulus

Price adjustment during the year from 1st of June 2022 on

Dear Sir or Madam,

the global economy has been experiencing a wave of inflation of unimaginable dimensions since last spring. The reasons for this are well known: sharp price increases for raw materials, energy and logistics, global political uncertainties and the still unresolved supply crisis for electronic components.

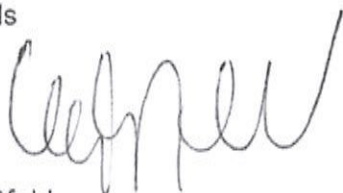

In 2021 JUMO ensured the availability of products at its own expense through forward-looking stockpiling as well as efficient global procurement management, thus providing you, as our customers, with a high degree of flexibility.

Since the beginning of the year, however, we have been confronted with further, significant and unforeseeable cost increases that JUMO can no longer compensate for. **In order to ensure our ability to deliver as far as possible, despite the very dynamic market, we therefore unfortunately have to make the possible price adjustment, that has been communicated in our quotations and order confirmations for some time.** We ask for your understanding in this regard.

Affected are all deliveries from 1st of June 2022 on, which will be charged with an price mark-up of currently +8.4% until further notice. You will receive an updated order confirmation for orders already received in the coming days. We reserve the right to make further adjustments due to the unforeseeable development of the procurement market.

You can be sure that this step was not easy for us. However, from an economic point of view, there is currently no alternative to this measure in order to be able to serve you further on with our products, solutions and applications in this market situation.

Best regards

Steffen Hoßfeld
Chief Operating Officer

Markus Belmer
Director Global Sales
